

Tomlinscote School

June 2020

Dear Parents/Carers

Remote Learning Feedback

Whilst the school continues to be closed for most students and the learning is taking place in a very different format to usual, we hope you will find it useful to receive some feedback on how effectively your child has been responding to current expectations.

To this effect, staff teaching Year 7 and/or Year 8 classes have been asked to provide their best judgement for each student as to whether they fully engage with all tasks set, they understand the content and they submit work reflecting their ability in the subject. We are, however, conscious that we are not necessarily fully aware of external factors and family circumstances which may have impacted negatively on students' ability to produce their very best in these difficult times.

The feedback is now ready for you to view on our assessment portal 'GO 4 Schools', by visiting <https://www.go4schools.com/parents/>.

To help you log in, please visit the following section from the school website: shorturl.at/cjlrS.

Please click on 'View report' (column header '12 Jun 2020') at the bottom of the screen to see the relevant document and save it in PDF format for future reference.

We appreciate that the current time is quite difficult for many people, but we hope that this feedback provides some valuable information about the progress your child is making with the Remote Learning. Most students seem to have adapted and to be responding very well to the new expectations, and we feel it is important to acknowledge it formally. Please contact Ms Bennett (Head of Year 7 – rbennett@tomlinscoteschool.com) or Mr Young (Head of Year 8 – syoung@tomlinscoteschool.com) if you need further support to help your son/daughter.

Yours sincerely,

Mr R Major
Principal

Mr A Daniel
Assistant Principal
