

Dear Parent/Guardian,

Welcome back to a new academic year for 2021/2022. The last two years have, as we all know, been a very difficult and strange time throughout the pandemic.

Now the College is fully re-opened we want to ensure students and parents are updated with the options available after year 11 and beyond. Depending on Covid-19 measures within schools and colleges we will endeavour to visit your school with all of the college information and attend year 11 assemblies where possible.

To ensure everyone receives the information you need for your child's progression after finishing school, we would like to invite you to our online information evening. You will be able to listen to the College presentation which will provide you with details of the courses we offer, life as a student at the College, entry requirements and the application process. The webinar will last approximately 30 minutes.

Details of your online information session:

School: Tomlinscote

Date: Thursday 30th September

Start Time: 7.30pm

Details to log in: Please search for your school session at www.farn-ct.ac.uk/event/parent-online-information-evenings-multiple-dates/ please register and you will be issued with a meeting ID and password.

We will ensure that all videos and microphones are disabled on the call so you will only be able to see our presentation slides and our team member delivering the session. Questions can be asked via the chat section and the team will do their best to answer either on the call or as soon as possible.

I look forward to welcoming you to our online events.

Yours sincerely,

Keri McSweeney
Schools Liaison Officer
