10<sup>th</sup> November 2021

Dear Parents and Carers

## **Covid-19 Vaccination programme 12-15 year olds**

I would like to update everyone with our vaccination programme today. We have vaccinated all Year 11 students with parental consent under the age of 16. In addition, we were able to vaccinate some Year 10 students as there were some spare vaccines.

I have been informed that the Immunisation Team will return to school but the date is currently unknown. Alternatively, parents and carers can take their child(ren) to a main vaccination centre, following the advice in previous letters.

I appreciate that this situation is frustrating for a number of you, however, this was due to a reduction in the Immunisation staff available to cover the programme. As soon as I know an actual date for the return of the Immunisation Team, I will let you know straight away.

Yours sincerely

Mr Major  
Principal
