

Tomlinscote School

16th March 2022

Dear Parents and Carers

EDULINK UPDATE FOR PARENTS AND CARERS

As you are aware, Tomlinscote uses EduLink One as its information platform that allows parents/carers to view with ease a wide variety of day-to-day information about their children.

Support about setting up Edulink

You can click on this Parent guide if you need support accessing the App or website version.

<https://www.tomlinscoteschool.com/attachments/download.asp?file=3417&type=pdf>

Further, to find out more about EduLink One's functions, we also recommend watching this [short tutorial video](#).

Completion of Home Learning tasks

We are no longer applying stamps in student planners for any issues relating to the completion of Home Learning tasks. These are now recorded in EduLink, as the platform allows for more refined information to be shared regarding the specific nature of the problem (i.e. whether the task was not completed at all, partly completed, or of poor quality). Staff also have the option to add more detail about the task, which you may find useful in situations when the work needs to be caught upon. Furthermore, EduLink provides a higher degree of feedback immediately, as families become aware of the Home Learning issue at the time when it is identified (thus allowing a conversation with your child on the very day) and parents who do not live together can receive the information simultaneously.

If you have any queries regarding the use of EduLink, please refer to the school website (Parents & Carers / EduLink One), or email data@tomlinscoteschool.com.

Your sincerely,

Mr Major
Principal
