

# Tomlinscote School

8th October 2025

Dear Parent/Carer,

## GCSE Revision guides for Science

Each year, we receive many queries from students and families about the best commercially available revision resources to support GCSE Science learning. Below, I have identified a set of revision guides and associated workbooks that are specifically matched to the **Edexcel** (9-1) specification, and I believe they represent good value for money.

The publisher is currently offering a 50% discount on these resources for purchases made through the school. You can find more details about these books on the CGP Books website at [www.cgpbooks.co.uk](http://www.cgpbooks.co.uk). I would like to offer you the opportunity to take advantage of these reduced prices through Tomlinscote. However, please note that it is not essential for you to purchase these resources, and I have no affiliation with the publisher.

Please can orders be paid through ParentPay by **Wednesday 22<sup>nd</sup> October** and we will distribute these to students in lesson, after the half term break.

Triple students in Sets 1 and 2 will require Triple Higher Tier resources which are aimed at grades 9 to 4.
