

Tomlinscote School Newsletter

19th June
2026

Dear parents & carers,

The GCSEs have now finished and the Year 11 cohort can begin their holiday period without any academic pressures. The next big event for the students is the Prom that is taking place at Farnham Castle.

It has been a relatively quiet week within school because of all the trips that have taken place—Germany, France, Spain, Marwell Zoo and Alice Holt trips. Furthermore, some students went to Woking Victoria theatre to watch the production “Mincemeat” and students enjoyed the immersive dramatization “The Life of Jesus Christ” at Wintershall. I also hope that Year 10 students enjoyed their Work experience opportunity. I am sure that some students would have had their views about certain careers reinforced because of their experiences. Thank you to all parents and employers who have supported the school and students in some way this week.

On Wednesday, it was the National “Thank A Teacher Day”. Thank you for the 230 responses on Wednesday and these will be shared with my colleagues. I think it is really positive to share the many positive comments and it will be appreciated.

The weather forecast for next week is around the 30 degree mark each day. Please ensure that your child has at least one water bottle, suncream and a hat. We have postponed sports day because of the potential risks caused by the predicted temperatures and will let the students know when the date has been rescheduled.

Please note that students can also attend school in their PE kits during this spell of hot weather.

I hope you have a good weekend.

Mr Major

Key Dates

Tuesday 23rd June 2026
Sports Day **POSTPONED!**

Wednesday 24th June 2026
Year 6 Transition Evening
6.15pm - 8.15pm
Main Hall

Thursday 25th June 2026

4pm - 6pm
Top floor, R block

Friday 26th June 2026
Year 7 reports sent home

Tuesday 30th June 2026
Year 6 Induction Day
Uniform Station in the Main
Hall 6.30-7.30pm

Thursday 2nd July 2026
Year 11 Prom at
Farnham Castle

Girls into STEM Day

During the first half of the day our students had to interact with the workshops from eight companies. The girls programmed robots, made bracelets from engineering wire, took blood pressure from each other and used Virtual Reality to investigate submarines.

During the afternoon it was the bridge building competition and our students had to build a tower to hold a can of beans as high as possible with 30 sheets of paper and a roll of tape ...
within the space of 25 minutes.

Tomlinscote didn't just win, they **broke** the previously held record!

Another activity was an interview session that looked like speed dating. Every seven minutes a new Woman In STEM mentor arrived at the table and the girls got to ask her lots of questions. The girls got a lot out of the experience and were fascinated at all the different routes into their roles.

UNIFORM STATION

...your stop for free schoolwear...

30 June – 6:30-7:30pm in main hall

Planning a half term uniform clear-out?
